How to use this manual

Part number format

To maintain the safe operation of the MFP, some parts are set up as “essential safety parts.” The part numbers for these essential safety parts are indicated as SP00-####KC. When replacing these parts, follow the precautions specified in the appropriate Disassembly/Assembly chapter in the *HP LaserJet 9055mfp/9065mfp Service Manual*.

The revision control digit might be different when placing a parts order.

The following is an example of the part number format for standard parts, such as screws and springs:
00Z163081KC

The following are examples of the part number format for HP parts:
Q3639-67901 HP new assembly
Q3639-69101 HP exchange assembly

Line indicators

Exclusive parts (♣)

There are several parts in the MFP that are region-specific (for example, labels), voltage-specific (for example, lamps), or model-specific (for example, ADU control PCA). These parts are referred to as **EXCLUSIVE PARTS (♣)** on the diagrams in this manual. The following information will help you determine which exclusive part you need.

This exploded view diagram illustrates the assembly of a mechanical device, likely a printer or scanner. The components are numbered 1 through 17, and specific parts are identified by letters A, B, and C. The diagram shows the following parts and their assembly sequence:

- Part 1:** A motor or actuator assembly at the top center.
- Part 2:** A long shaft or rod passing through the assembly.
- Part 3:** A small bracket or connector at the top left.
- Part 4:** A plate or housing component below the motor.
- Part 5:** A gear or pulley at the top right.
- Part 6:** A gear or pulley in the center.
- Part 7:** A bracket or support arm at the bottom center.
- Part 8:** A small component near the center.
- Part 9:** A gear or pulley below the center.
- Part 10:** A small component near the center.
- Part 11:** A long plate or housing at the bottom right.
- Part 12:** A small component near the bottom right.
- Part 13:** A small component near the bottom right.
- Part 14:** A small component near the bottom right.
- Part 15:** A small component near the bottom right.
- Part 16:** A small component near the bottom right.
- Part 17:** A long plate or housing at the bottom right.

The assembly is shown in a disassembled state, with dashed lines indicating the alignment and sequence of assembly. The letters A, B, and C are used to group related components or indicate specific assembly points.
